1.0 GENERAL INFORMATION

1.1 PURPOSE OF REQUEST FOR PROPOSAL (RFP)

The South Dakota State Historic Preservation Office (SHPO) is soliciting proposals for the completion of a reconnaissance-level architectural survey of Edmunds County, South Dakota.

Architectural surveys provide the SHPO with a permanent record of South Dakota's historic properties. The survey is used to identify properties eligible for the National Register of Historic Places. Both the SHPO and local communities use the information gathered by a survey as a planning tool to ensure wise use of the state's cultural resources. Architectural surveys also help to facilitate the Section 106 of the National Historic Preservation Act and SDCL 1-19A-11.1 review and compliance processes, procedures that help protect South Dakota's cultural resources from potential adverse effects that may occur during the implementation of federal or state funded projects.

The contractor will follow the South Dakota Historic Resource Survey Manual while conducting this survey. It can be found online at:

<http://history.sd.gov/Preservation/OtherServices/HSArchitecturalSurveyManual2006.pdf>

Each property that appears to be at least 40 years old and retains integrity will be recorded on a new South Dakota Historic Sites Structure Form. Potentially eligible properties that cannot be evaluated from public right-of-way due to visual obstructions such as trees etc. will not be surveyed, but their location will be marked on a map included in the final survey report. The South Dakota SHPO Ineligible Survey Form will not be used for this survey. For urban surveys, secondary structures will be recorded on the same site form as the primary structure. Substantial secondary structures like carriage houses will be recorded on a separate form. The contractor will survey any bridge that appears to be at least 40 years old, retains integrity, and has not been previously surveyed. Eligible cemeteries will be surveyed.

For all properties previously-surveyed more than five (5) years ago, the contractor must update the existing information to ensure accuracy and add any new information to reflect changes or alterations from the previous survey.

- 3.1.3.2 Photographic Requirements – Each surveyed property requires at least a single photograph that meets the digital photograph requirements in the *South Dakota Historic Resources Survey Manual (2006)*.
